Wagon Wheels

Some friends just bought a parcel of land from Dad Baker. The land is good but it's rough. The new owner got an old wagon with the land and was askin' me about puttin' on new wheels. He explained that the wheels were loose and they probably wouldn't last much longer. Now I'm no wizard about mechanical things but I do know that a loose wheel will "walk" itself around palmetto roots and stumps where a tight one will break in no time at all. So I told him. The new owner looked at me like I was makin' fun of him.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest-3% compou ed semiannually when held to maturity (9 years and 8 months) -they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work-or invest in Bonds regularly where you bank.

Parsent terasury regulations make & possible for you to collect a setum of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds when you have held for ten years, but any other ferries E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too.

The Bond you got for \$18.75 can now pay you \$33.67...a \$87.50 Bond will be worth \$67.34... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much saven see also. as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90... in 9 years and 8 months, you'll have \$2,850.70... and in 19 years and 8 months, \$6,872.45! This Plan is one sure of every check before you have a chance to

The foundation also reported that a new carillon, "America," is being installed in the Singing Tower to supplement the Taylor cast bells which heretofore have pro-

er to supplement the Taylor cast bells , which heretofore have provided all of the carillon music.

Judge Curtis Bok, secretaryof the foundation which administers the Mountain Lake Sanctuary and Singing Tower, said there is no intention of abandoning recitals on the cast bells in favor of electronic bells, but the presence of both instruments in the tower would permit an expanded recital schedule. He cited the physical exertion required to play the cast bells and said recitals on the present carillon necessarily must be limited.

So that visitors can hear the Singing Tower "sing" whenever they visit the sanctuary, electric strikers are being installed on five of the cast bells. A precision program clôck will provide for sounding the traditional Westminister melody and hour 'strike each hour the sanctuary is open.
